

# Maximize Retention: Science-Backed AI for Lifecycle Optimization

The number one reason we stay or leave an organization is attributed to the relationship we have with our direct manager. Then why don't we hire based on that people first connection?

## A 100 employee firm faces \$600 – \$2.6m yearly in turnover costs

### The way we hire does not work.

Turnover costs U.S. businesses an estimated \$1 trillion annually. The cost of replacing an employee can range from 0.5 to 2 times their salary.

### Onboarding lacks cohesion.

Companies with good onboarding processes see a 60% increase in annual revenue. It takes 2 years for a new hire to match an existing employee's productivity.

### Employee growth is unplanned.

70% of employees would leave their current company for one that invests in employee development and learning.

# People alignment in the digital age

Our platform ensures that you hire the right candidates for your team, reduce turnover, and improve overall performance. Experience the benefits of Hatchproof's cutting-edge technology today!

## Got a question?

What makes your platform different from other HR tech solutions?

—

Our platform is unique in that it is powered by AI technology that streamlines the hiring process, reduces recruitment costs, and improves the quality of hires. Additionally, our People Alignment Platform (PAP) uses behavioral science to help companies reduce talent acquisition costs, improve people retention, and maximize team performance.

When will your platform be launching?
